WORK EXPERIENCE

Software Engineer, Salesforce, San Francisco, CA   **Sep. 2022 – Present**
- Created APIs, microservices, and UI components for a new partner enablement product for Sales Cloud.
- Performed a live demo representing my team in front of the entire org including the Sales Cloud GM.
- Coordinated with PMs to build out analytics and dashboards for a new product, measuring 30+ user interactions.
- Built custom search functionality from scratch in the UI, creating custom components and allowing users to search across 3 types of criteria, providing results in seconds for Sales Cloud Go.
- Developed analytics and instrumentation for a new product, measuring 40+ user interactions and creating a dashboard with optimized SQL queries to better understand how users are using the product.

Course Instructor, Swarthmore College, Swarthmore, PA   **Mar. 2022 – Apr. 2022**
- Developed curriculum from scratch and taught a 0.5 credit course for the Swarthmore College Computer Science Department called CS 17: Foundations of Technical Entrepreneurship.
- Instructed 20 students from Swarthmore, Bryn Mawr, and Haverford Colleges, garnering 40+ initial signups.
- Secured Aaron Levie (CEO/Founder of Box) as a speaker through cold emailing.

Software Engineering Intern, Salesforce, San Francisco, CA   **Jun. 2021 - Aug. 2021**
- Implemented authoring via image URLs for prompts and walkthroughs in Salesforce's Lightning Platform to optimize org space usage for internal and external users to be offered in Salesforce's 236 release in Winter '22.

Venture Capital Analyst Intern, Idea Fund Partners, Durham, NC   **Jan. 2021 – Apr. 2021**
- Sourcing, due diligence, and deal review of 100+ startups for an early-stage B2B and prop-tech fund.
- Synthesized an investment thesis mapping out the less-than-truckload logistics and supply chain industry.

Product Management Intern, Hatch, Menlo Park, CA   **Jun. 2020 – Aug. 2020**
- A Series A startup (at the time) helping families sleep better through 3 main smart sleep products.
- Increased productivity for finding resources by 72% by creating a company wiki used by the 50+ person company.
- Built the groundworks for push notifications on the Hatch app, defining the technical specs and content strategy.

Fellow, True Ventures, San Francisco, CA   **Jun. 2020 – Aug. 2020**
- Selected as 1 of 12 fellows nationally to work with a portfolio startup and learn about venture capital and startups.

Business Development Intern, Postmates, San Francisco, CA   **Jun. 2019 – Aug. 2019**
- Prospected, outreached, and pitched to new verticals including a retailer with 100+ stores launched in 4 markets.
- Designed 15+ product marketing materials distributed to 100+ enterprise, mid-market, and SMB merchants.

PROJECT AND LEADERSHIP EXPERIENCE

Deepfake Detection Project (Deep Learning, TensorFlow, Keras, Colab)
- Processed a data set of 1200+ images and videos of celebrities to train a convolutional neural network model to 88% accuracy in detecting deepfakes.

Quality Champion, Salesforce, San Francisco, CA
- Designated as the quality lead for the team, leading bi-weekly team testing blitzes and bi-monthly org-wide testing parties with 60+ attendees, resulting in 36% less last-minute bugs found.

President, LaunchDeck, Swarthmore, PA
- Revamped from scratch to lead 160+ members for Swarthmore's largest entrepreneurship and technology club.
- Coordinated 10+ speaker events, launched a $2500 venture fund, and a mentorship program with 24 participants.
